

Spare part engraver kit for electric marking units ME-E

The following spare part engraver kit is available for the electric marking units ME-E:

Spare part engraver kit SWS-ME-E-R2,0: Part no. 27316
 - Suitable for electric marking units ME-E
 Part no.s 24447, 24456, 38371

Example: Exchanging the engraver kit in marking unit ME-E (24447)

1. Place the marking unit in vice and secure at nut.

2. Remove the marking head with pliers.

3. Parts to be replaced
 friction bearing marking head spring

4. Manually insert the spring

5. Manually insert the marking head

6. Manually insert the friction bearing (chamfer visible)

7. Press in the spare parts vertically until friction bearing flush with head of marking unit. Secure the marking head vertically in place to avoid axial strains of the gear motor.
