Partner for Future Technology

- Trusted pre-centring for reliable positioning of the PCB fed from the conveyor belt in the inline interchangeable kit
- Suitable for inline interchangeable kits WS ASYS/ATH01/173,5 and WS ASYS/ATH01/210,5
- Quick, easy installation on the pressure frame plate

Application

The pre-centering pins (VZ) are installed on the pressure frame plate and are used for the reliable positioning of the PCB fed from the conveyor belt in the inline interchangeable kit. They are used in inline interchangeable kits WS ASYS/ATH01/173,5 and WS ASYS/ATH01/210,5 and are installed on both sides.

Delivery

Delivery includes 4 pre-centering pins and installation accessories.

General data

| | |
|--------------------|---|
| Product group: | Pre-centering pins |
| Series: | VZ |
| Type: | Pre-centring pin, round, centric |
| Version: | Not ESD compliant |
| Accessory type: | Additional function |
| Scope of delivery: | 4 pieces including installation accessories |
| Material: | 3.3206, anodised |
| Colour: | Silver |
| Weight: | 0.03 kg [.066 lbs] |
| Min. temperature: | 10 °C [50 °F] |
| Max. temperature: | 60 °C [140 °F] |
| RoHS-compliant: | Yes |

Compatible with

Interchangeable kits (WS):

WS ASYS/ATH01/...

Technical data

Installation:

Thread M4

Length:

40 mm [1.57 in]

Diameter:

8 mm [.314 in]

Pre-centering pin **VZ-R-08-40-M-ASYS**
