Partner for Future Technology

- Spare parts kit for quick, reliable and preventive maintenance
- Easy exchange on site

### Application

Spare parts are required as part of preventive maintenance or as soon as components wear out during normal operation and need to be replaced. The RF seals are inserted into the grooves provided for this purpose. The grooves must be degreased before fitting the seal. We recommend wearing gloves when replacing the RF seals.

### Note:

The RF seals have a typical service life of approximately 100,000 load cycles (laboratory conditions). No wear that would restrict the mechanical function of the RF seals was detected in the endurance test.

### General data

|                    |                     |
|--------------------|---------------------|
| Product group:     | RF accessories      |
| Series:            | HF-D                |
| Version:           | Soft shield sealing |
| Accessory type:    | Spare parts         |
| Scope of delivery: | Unassembled         |
| Material:          | RF felt             |
| Width:             | 70 mm [2.75 in]     |
| Height:            | 1.5 mm [.059 in]    |
| RoHS-compliant:    | Yes                 |

### Compatible with
