

Push rod

NHS-GF-20,0-5,0-KU-ST-ESD

Item 49893

GO TO PRODUCT

ingun[®]

Partner for Future Technology

- Trusted push rod for reliable, spring-loaded fixing of the PCB in the probe field against the force of the test probes
- Robust, spring-loaded design
- Quick, easy installation
- Incl. KS-113 23 receptacle

Application

Push rods (NHS) are used in customisations to securely hold electronic circuit boards in place against the force of the test probes during contacting in the test fixture. Push rods are mounted in the pressure frame plate.
