

GO TO PRODUCT

- For quick, easy installation in a M12x1 threaded bore
- In customised test fixtures, large board marker probes (external thread M12x1) can be replaced by small board marker probes (external thread M8x0.5)

Application

The adapter sleeve is used as a connecting element for easy installation of the board marker probe ME-E-R2,0-08-053-2S-BL6V-42V in an M12x1 threaded hole.
