

Sustainability ratings at a glance

We regularly have our sustainability performance assessed by internationally recognized platforms. The results create transparency and reflect the continuous development of our activities.

Ecovadis

Since 2023, we have been registered with Ecovadis and have our sustainability performance evaluated.

2023	2024	2025
49/100	49/100	55/100

CDP

Since 2023, we have participated annually in the CDP rating. In 2025, we again achieved above-average results within our peer group.

INGUN Score	Global Average	Regional Average	Activity Group Average
			

Score report development:

2023	2024	2025
C-	B	B

Additional platforms

In addition, we use further platforms to manage and continuously develop our sustainability activities:

Platform	Status
Integrity Next	Active use
SBTi	Near-term targets committed (as of 10/25)
