

AW-KS-Set-Cable: Extraction tool for receptacles of series GKS-075 / 100 / 112 / 113

Incorrectly inserted and damaged receptacles can easily be removed within seconds using this extraction tool.

The tool cuts into the wall of the used receptacle when screwed in. The spring-loaded weight enables extraction of the receptacle without damage of the assembly hole.

Receptacles in the GKS-075/GKS-100/GKS-112 and GKS-113 series can be removed from the probe plate using the correct combination of extraction tool, adapter and bit insert.

The AW-KS-Set-Cable toolbox offers all components which are needed for simple removing:

- 1 x extraction tool (pre-assembled with standard spring)
- 3 x bit for extraction of KS-075
- 3 x bit for extraction of KS-100
- 3 x bit for extraction of KS-112
- 3 x bit for extraction of KS-113
- 1 x adapter for bits KS-075
- 1 x adapter for bits KS-100 and KS-112
- 1 x adapter for bits KS-113
- 1 x spring with increased spring force
- 1 x hexagon key SW1.3 for threaded pin
