Partner for Future Technology

- Spare parts kit for quick, reliable and preventive maintenance
- Easy exchange on site

Application

Spare parts are required as part of preventive maintenance or as soon as components wear out during normal operation and need to be replaced. The RF seals are inserted into the grooves provided for this purpose. The grooves must be degreased before fitting the seal. We recommend wearing gloves when replacing the RF seals.

Note:

The RF seals have a typical service life of approximately 100,000 load cycles (laboratory conditions). No wear that would restrict the mechanical function of the RF seals was detected in the endurance test.

General data

Product group:	RF accessories
Series:	HF-D
Version:	Soft shield sealing
Accessory type:	Spare parts
Scope of delivery:	Unassembled
Material:	RF felt
Width:	70 mm [2.75 in]
Height:	1.5 mm [.059 in]
RoHS-compliant:	Yes

Compatible with

Exchangeable kits version:	HF
MA exchangeable kits (ATS MA):	ATS MA13/HF/ESD

Technical data

Length:	325 mm [12.7 in]
---------	------------------

Radio-frequency exchangeable kits

Part no.	Designation	Version
154013	ATS MA13/HF/AL/ESD	Radio-frequency exchangeable kit without internal interface
154113	ATS MA13/S-10/HF/AL/ESD	Radio-frequency exchangeable kit with internal interface
154014	ATS MA14/HF/AL/ESD	Radio-frequency exchangeable kit without internal interface
154114	ATS MA14/S-10/HF/AL/ESD	Radio-frequency exchangeable kit with internal interface
